

Arleene Santiago

Inspire Preparatory Academy

I am a dedicated passionate kindergarten and first grade teacher. I bring 14 years of experience supporting children's growth and learning in the classroom. I provide academic and emotional support in a nurturing school environment. As a former childcare provider, I understand the importance of early childhood education and development. I bring that urgency to my students on a day-to-day basis to undergird their personal development.

I am bilingual in Spanish and English, I proudly bring the rich cultural heritage of my Puerto Rican roots into the classroom, fostering inclusivity and understanding.

My approach is centered on creating a welcoming space where every child feels valued and empowered to succeed.

Outside of work, I love cooking and sharing meals that bring people together, and I deeply treasure time with my two children, who continuously inspire me to grow both personally and professionally.
